NOTES ON TABLE I

General notes

Sources: see appendix; United Kingdom, estimates of Redfern.

Classification:

- (1) All dwellings.
- (2) Not included in total.
- (3) Only general government (military assets not included). For the distinction between general government, and government enterprises and public corporations (which are entered under A Enterprises, public) see *A System of National Accounts and Supporting Tables*, United Nations, pp. 11 and 12.
- (4) Roads, bridges, canals, dikes, and public schools included.
- (5) Only privately owned cars, wholly or partly in use for private consumption.
- (6) Government enterprises and public corporations; for further explanation see (3).

Year: 31 December.

Conventions:

- ... Not available
 - Zero or less than half the final digit shown
- billions=thousand millions

Country notes

Belgium	(1) Inventories of corporations (<i>Sociétés Anonymes</i>) included. (2) Government land included. (3) All passenger cars. (4) Jewellery included. (5) Structures and equipment only.
Luxembourg	(1) Agricultural inventories included. (2) Inventories and some structures included. (3) Standing timber included.
Netherlands	(1) Land and harbours included. (2) Forestry included. (3) Sown seeds, growing crop and perennial plants included. (4) Rough estimate. (5) Government land included.
W. Germany	(1) Rough estimate, government inventories included. (2) Rough estimate, government land included. (3) Roads, bridges, and canals excluded. (4) Rough estimate.
France	(1) Agricultural dwellings excluded. (2) Equipment and land included. (3) Agricultural dwellings and structures included. (4) Land of enterprises and building sites excluded. (5) Rough estimate. (6) Museums and art collections included. (7) Instead of B 1, B is taken (land of enterprises included, agricultural dwellings and structures excluded).
United Kingdom	(1) Inventories and structures of agriculture and coal-mining excluded. (2) Equipment included, structures of coal-mining excluded. (3) Only part of government services and public-owned schools and universities included, most central government structures excluded. (4) See other notes.
Sweden	(1) Equipment, inventories, dwellings, consumers durables, and subsoil resources included (total of mining, reprod. assets included, 4-5 mld. kr.). (2) Standing timber included. (3) Included in enterprises. (4) Subsoil resources included.
Norway	(1) Government equipment and inventories excluded. (2) Government equipment, inventories, and land excluded. (3) Inventories excluded.
Yugoslavia	(1) Perennial plants and growing crops included. (2) Claims for reparations included.
Canada	(1) Military airports, barracks, wharves, etc., included (not equipment as weapons, aircraft, etc.).
United States	(2) Rough estimate of dwellings and inventories only. (1) Standing timber included. (2) Some public enterprises (of local authorities) included. (3) See (2).
Mexico	(1) Equipment included. (2) Soil improvements included. (3) Standing crop and perennial plants included.
Australia	(4) Some military buildings and government enterprises included. (1) 30 June. (2) Government enterprises and public corporations excluded. (3) Some government land included. (4) Government enterprises and public corporations included. (5) Rough estimate.
South Africa	(1) Government enterprises and public corporations excluded. (2) Government enterprises and public corporations included.
Argentina	(1) Equipment included. (2) Dwellings and equipment included. (3) Inventories excluded.
Colombia	(1) Urban housing only. (2) Inventories: livestock only.
Japan	(1) Growing crop included.
India	(1) Government land excluded.
Germany, France, South Africa, India	{ Standing timber is included in land.

NOTES TO TABLE V

Methods of valuation, symbols used.

A - Quantity \times price.

1. Replacement cost minus depreciation.
2. Market price.
3. Market price of used goods.
4. Expert price (or estimated price).

B - Balance sheet figures.

1. Book value.
2. Book value of assets adjusted for current price level, or book value = current price level.
3. Value of net worth.

C - 1. Direct expert valuation of value after depreciation.

2. Census valuation of value after depreciation.

D - Perpetual-inventory method.

E - Capitalization of net income (or rent).

F - Valuation of net worth on the basis of stock-exchange value of stocks and bonds.

G - Insurance data (fire, marine, and aviation insurance).

1. Insurance premiums capitalized.
2. Insurance expert valuation (+ correction for possible undervaluation).

H - Tax data.

1. Valuation by tax authorities.
2. Capitalization of cadastral levy.

NOTES TO TABLE V (*continued*)*Methods of valuation, symbols used.*

I - Other methods.

1. Labour force \times floor space per man.
2. Capital invested per man (based on limited research).
3. Valuation of monetary gold by adding gold imports and issues.

J - 1. Value as a percentage of other assets.
 2. Value as a ratio of other economic data.

K - Official data, not further specified (Government, Central Bank, etc.).

Additional symbols.

One of the above-mentioned methods + a = estimate of a past year continued by means of price and (or) quantity indexes.

A} both methods used as a check.

B} no information on methods available.
 .. no estimates available (see Table I).

Country notes.

- (1) Estimates of Redfern.
- (2) Estimates of Barna.
- (3) After correction for structures, holdings and foreign participations.
